

LINE VOLTAGE THERMOSTAT REBATE

MEMBER INFORMATION

Name:	Account Number:
Physical Address:	City, State, Zip:
Email:	Phone:

HOME INFORMATION

Home Type: Single Family Manufactured Home Multifamily

Heating System: Electric baseboard Electric wall units
 Electric Radiant

Number of Units Installed: _____
 (account will be credited 50% of the value up to \$20/unit)

INSTALLATION REQUIREMENTS

You must be able to check all boxes to be eligible for a rebate:

Thermostat is installed in an existing home (new construction does not qualify)

Thermostat meets the following criteria:

- Has a digital Display
- Is an electronic line-voltage type
- Has a thermistor temperature sensing element that is accurate to within 1.5 degrees or better
- Be a UL- or CSA- listed for use with their application (i.e. fan-forced, baseboard)

I have attached invoices justifying the quantity, price and purchase date of installed equipment. This application must be received by the Park Electric office within 60 days of the purchase.

ACKNOWLEDGMENT

By signing this, you certify that the line voltage thermostat was installed in Park Electrics service territory at the address listed above and it shall remain at the service for the life of the unit. I hereby grant Park Electric Cooperative or it's agents the right to inspect the thermostat. I acknowledge that Park Electric is in n way responsible for the replacement or repair of this unit.
